

Continued education for specialized personnel in animal experimentation

Organized by the Institute of Neuroinformatics (INI), Uni | ETH Zurich

P R O G R A M

“Current issues in primate experiments”

25. September 2006

Irchel Campus, Universität Zürich

- 10:00 - 10:15 Welcome and Introduction
- 10:15 - 11:30 “Current concepts on primate anesthesia”
(Peter Kronen, Veterinary anesthesiologist, Berne)
- 11:30 - 12:00 Discussion: anesthesia methods, is new also better?
- 12:00 - 13:15 Practical issues for recordings in anesthetized primates
(Henry Kennedy, Lyon)
- 13:15 - 14:00 Lunch break
- 14:00 - 15:00 Visit of the local primate housing and experimental facilities (demonstration of animal indoor and outdoor housing, enrichment, handling, training, and experiments)
- 15:00 - 17:00 Discussion: future primate research in Switzerland.
Topics include animal housing, training, experiments, RRR, ethics, and legal aspects of primate research in Switzerland and Europe (Panel: D. Kiper, K. Martin, E. Rouiller, H. Scherberger)

This event has been approved by the Federation of Swiss Cantonal Veterinary Offices as a 1-day continued education for specialized personnel in animal experimentation. Registration will be CHF 50.- per person.

To enroll, please email H. Scherberger (hjs@ini.phys.ethz.ch) and state your name, title, institutional address, and email contact.

Zurich, 10-Aug-2006

Dr. H. Scherberger
